Forest Stewardship Skills*

# Turning Idaho Trees into Wreaths

Wreaths provide a beautiful decoration for the winter season. Learn to make a fresh wreath using native evergreen boughs. Many of Idaho's native evergreen trees provide the perfect material for creating evergreen wreaths. Jennifer Jensen, UI Extension Educator, will discuss several methods of making wreaths. She will demonstrate how to create a wreath using a box wreath frame and then assist you in making your own wreath.

To ensure an effective learning environment, this session is limited to 30 participants. To register online go to: <https://marketplace.uidaho.edu/> then scroll to and click on "University of Idaho Extension: Panhandle Forestry". Otherwise, return this form on the back of this flyer with a check (\$10/person) to: University of Idaho Extension - Bonner County Office, 4205 N. Boyer, Sandpoint, ID 83864 Phone: (208) 263-8511.

Supplies provided include a 12-inch wreath frame, wire, and a selection of native evergreen boughs. There may also be a selection of pinecones for decorations. Plan to bring any special bows or ornaments you wish to add. As well as pruning shears and gloves.

*Turning Idaho Trees into Wreaths* will be held on **Saturday, November 23, 2024, from 1 pm to 3pm** at the University of Idaho Sandpoint Organic Agriculture Center, located at 10881 N Boyer Road in Sandpoint.

## Identifying Idaho's Trees...

This wreath making workshop will be preceded by a morning workshop at the same site on identifying native Idaho trees. Registration for that program is separate and is also available online (go to <https://marketplace.uidaho.edu/> then scroll to and click on "University of Idaho Extension: Panhandle Forestry") or through the UI Extension Office in Bonner County (contact info on this flyer's registration panel).
