

Sean Williams - UCM/Centers Web Coordinator

10 July 2024

Sean has been so wonderful in helping our team revamp our website! He has provided great feedback and communication throughout the design process and every proof he sent was so well executed. This process was a daunting task but working with Sean made everything run so smoothly. We are incredibly excited to publish our new webpage and commend Sean for all of his hard work on this project! Thank you for everything!

Jill Ingram - Assistant Director, FSL

12 July 2024

PTS has to work closely with several campus partners to make the start of campus permit sales successful. Jill in the FSL office is a key part of that effort. Not only does she help communicate information and deadlines to students directly, she also helps us by answering questions timely, verifying permit eligibility, and providing us with information we wouldn't otherwise have on hand to make permit sales smoother and faster. Jill's also very good at improving our existing systems and making our partnership even more effective. It's safe to say, we couldn't do it without her. Thanks Jill!

Daniel Joosten - Maintenance Specialist

18 July 2024

Dan drove the vandal trolley for the new employee onboarding event. We called Thursday afternoon and he was ready and eager to take us for a drive around town Monday afternoon. Seeing as we only gave them one day notice I want to shout out Dan and the entire PTS team for allowing us to use the trolley on such short notice. The process was so quick and easy and our application was approved same day! What great work!

Ky Paulsen - Accounting Specialist II

31 July 2024

Ky responded excellently to an email where an individual expressed a need for a medical accommodation and did a great job of asking them to not share any further information in a polite and professional manner. That is exactly what we try and coach the U of I community to do and they did a great job putting it into practice!
